# HOW TO GET STARTED TRANSFORMING YOUR GARAGE

IT'S TIME TO RETHINK THE GARAGE

IT'S TIME TO RETHINK THE GARAGE

# TRANSFORM YOUR GARAGE INTO SOMETHING MORE

## IMAGINE A GLADIATOR® GARAGEWORKS GARAGE

A garage that predicts your needs and easily adapts to accommodate them, a garage organization system so advanced that clutter concerns are a thing of the past. A garage that looks as amazing as it works. A garage that's a focal point of your home rather than an afterthought.

Now, imagine that garage being yours.

## 1 AT A GLANCE 4-5

A quick overview of the complete Gladiator® GarageWorks system.

## 2 INSPIRATION 6-15

These garage designs are guaranteed to get you going!

## 3 GETTING STARTED 16-17

Every great journey begins with a first step.

## 4 PLANNING 18-19

All the resources you need to develop a great plan of action.

## 5 HOW-TO 20-29

Building your dream garage is easier than you think.

## 6 PRODUCTS 30-51

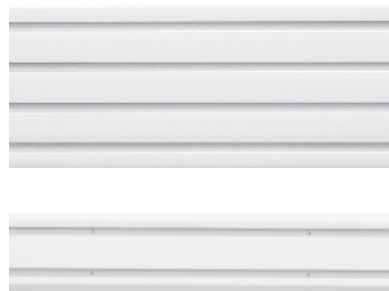

A great system needs great parts. See for yourself.

## A FLEXIBLE ORGANIZATION SYSTEM

designed to create a seamless look in your garage.

GET GEAR OFF THE FLOOR  
AND ONTO THE WALL

### WALL SYSTEMS

GearTrack® Channels & GearWall® Panels are patented "slat wall" style tracks for hanging hooks, accessories and GearBoxes.

Pages 20-21, 31

GIVE EVERY ITEM  
A HOME OF ITS OWN

### HOOKS & ACCESSORIES

From hooks and baskets to shoe racks and shelves, the full line of Gladiator® accessories gives every item a home.

Pages 21, 32-34

KEEP CLUTTER HIDDEN  
BEHIND CLOSED DOORS

### CABINETS & TOOL STORAGE

Stylish, rugged cabinets keep gear organized and out of sight, while a variety of tool storage options offer the perfect solution for any size tool collection.

Pages 22, 36-39, 45 & Pages 24-25, 40-44

WORK SURFACES THAT  
WORK FOR YOU

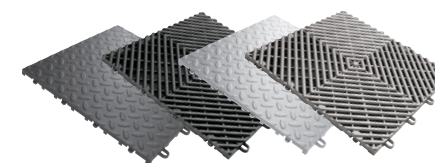

### WORK SURFACES

Gladiator® work surfaces and modular workbenches provide superior support and versatility for projects large and small.

Pages 23, 46-48

WE'VE GOT THE  
FLOOR COVERED

### FLOOR COVERING

Thanks to our tile floor covering that installs quickly and without adhesives, transforming your garage has never been easier.

Page 27, 35

APPLIANCES THAT TALK  
TOUGH AND BACK IT UP

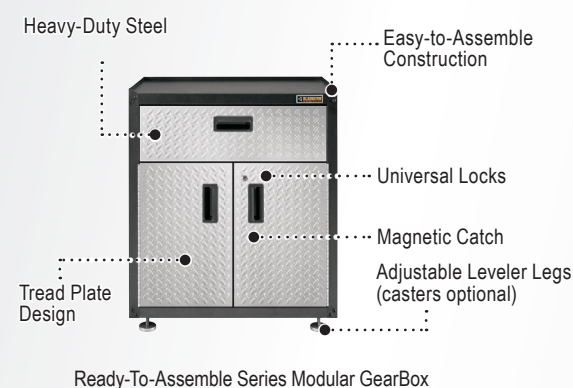

### APPLIANCES

Gladiator® appliances are built to deal with the harsh conditions of the garage so the items they store will never have to.

## IT'S WHAT YOUR GARAGE WAS MADE FOR

Vehicles need homes, too. After all, that's why the garage was first invented. Gladiator® GarageWorks has revolutionized this concept, providing a system that surrounds your automobile in well-organized luxury and clears clutter from the floor.

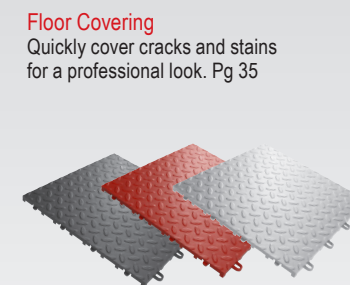

- A. Tall GearLocker
- B. GearTrack® Channels
- C. 122cm (48") Solid Shelf
- D. 76cm (30") Wall GearBox
- E. 61cm (24") VersaTop™ Work Surface
- F. Modular GearDrawer
- G. Charcoal, Silver and Red Tile Floor Covering
- H. Powerstrip
- I. GearWall® Panels
- J. 244cm (8') Modular Workbench

**Modular GearDrawer**  
Perfect for storing your tools in a mobile unit. Pg 44

**Modular GearBox**  
Store larger items like jacks and tire irons at ground level, where you need them most. Pg 45

**Floor Covering**  
Quickly cover cracks and stains for a professional look. Pg 35

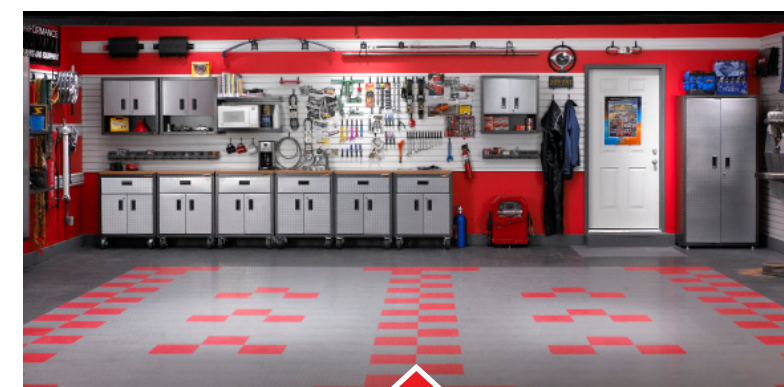

**Small Item Bins**  
Great for storing small items like screws, nuts and bolts. Pg 34

## SMOOTH MOVES

Gladiator® Modular GearDrawers feature various-sized, full-extension drawers with steel ball-bearing slides for smooth opening and closing. Easily get whatever part you need without missing a beat.

See page 44

## READY-TO-ASSEMBLE SERIES

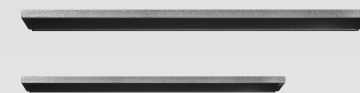

Drain floor covering makes it easy to wash away any mess gardening gets your garage into.

# GATEWAY TO THE GARDEN

## ZEN GARDEN, ZEN GARAGE

Your garden is a peaceful retreat. A place you can go to escape from everyday stresses and unwind. Experience that same calm in your perfectly organized garage, thanks to Gladiator® GarageWorks. Every item in your garage gets a home, while you get a sense of serenity matched only by a relaxing afternoon in the yard.

- A. Fold-Away Workstation
- B. Tall GearLocker with Optional Premier Bracket Kit
- C. Silver and Charcoal Tile Floor Covering
- D. 122 (48") Solid Shelf
- E. 61 (24") Wall GearBox
- F. 76cm (30") Solid Shelf
- G. GearWall® Panels
- H. Clean-Up Caddy
- I. J & L Hooks

**Gladiator® Shelves**  
Store pots and soil off the floor, but still within arm's reach. Pg 34

**61cm (24") Wall GearBox**  
Keep seeds and spades easily organized and securely stored. Pg 36

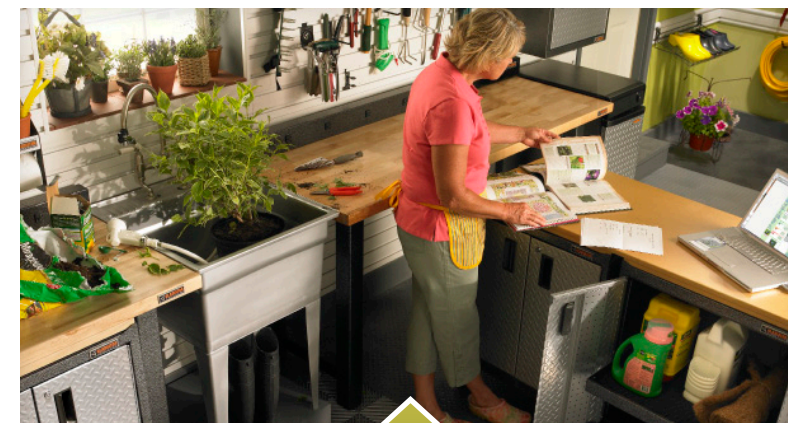

Avoid accidents by storing lawn products like weed killers and fertilizers in locking cabinets.

## FULLY STACKED

Stop stumbling over those pesky terra-cotta pots! Gladiator® shelves are perfect for keeping unused pots, buckets and baskets organized and out from underfoot.

See page 34

## GREENHOUSE EFFECT

Gladiator® products provide limitless options for the gardener. Keep everything—from soil to seeds—right where you need it most, with workbenches that conveniently dock GearDrawers and GearBoxes.

See pages 44-45

Use our various tile floor colors to honor your favorite team. Watch for dropping jaws!

# SPRING TRAINING

## TURN GAME TIME INTO GO TIME

Make your garage a shrine to all things sports. Proudly display your golf clubs on the Gladiator® Golf Caddy or hide them away inside a Tall GearLocker. Regardless of how you play, Gladiator® GarageWorks delivers all-star storage solutions for you and the rest of your team.

- A. 76cm (30") Wall GearBox
- B. 46cm (18") Wire Basket
- C. GearTrack® Channels
- D. Jumbo GearBox with included Bracket Kit
- E. Silver and Charcoal Tile Floor Covering
- F. Hooks
- G. 122cm (48") Solid Shelf
- H. 61cm (24") Mesh Basket
- I. 76cm (30") Solid Shelf
- J. Fold-Away Workstation

**Tall GearLocker**  
Huge open space that's great for large items like baseball bats and hockey equipment. Pg 38

**61cm (24") Mesh Basket**  
Strong, flexible mesh basket is ideal for keeping sports balls from rolling around the floor. Pg 34

Use hooks, baskets and shelves to store frequently used equipment, such as bikes, balls and yard games on the wall nearest to the garage door, reducing the chances of a disorganized "trail of toys."

## SWEET SPOT

Hit the links at a moment's notice when you organize your golf equipment on the Gladiator® Golf Caddy. There's room for two oversized golf bags, golf balls and even your golf shoes. Game on!

See page 34

## TEAM PLAYERS

Let the entire family get in the game by giving everyone their own personal GearBox or GearLocker. This will provide your kids with a place for their stuff that isn't your garage floor.

See page 38

# FREE YOUR CREATIVE SPIRIT

## EMBRACE YOUR INNER INVENTOR

A buzzing circular saw. A pounding hammer. The smell of sweat and sawdust. For many, these images represent an oncoming headache. For you, they mean an ideal morning in the garage. By designing a garage tough enough to tackle any project you have for it, we've done our part creating. Now, it's your turn.

- A. 76cm (30") Wall GearBox
- B. 244cm (8') Modular Workbench
- C. Modular GearBox
- D. 61cm (24") VersaTop™ Work Surface
- E. Clean-Up Caddy
- F. Powerstrip
- G. Small Item Bins
- H. Deep Hook
- I. Chillerator® Garage Refrigerator

**244cm (8') Modular Workbench**  
Solid maple surface with room to dock up to three Gladiator® Premier Series modular components underneath. Pg 48

**183cm (24") VersaTop™ Work Surface**  
MDF surface easily installs on top of two Gladiator® Premier Series modular components, creating a mobile workstation. Pg 46

## STRONG, REAL STRONG

Gladiator® Modular Workbenches are strong enough to support an engine block. So unless you plan on repairing something bigger, like an elephant, you've got our complete support.

See page 48

## KEEP MOVING

Gladiator® Modular GearBoxes feature useful side handles designed to make moving them around and docking them under Modular Workbenches easy.

See pages 45, 48

Use a cabinet or drawer near your workstation to keep a first aid kit close at hand, in case you cut yours.

## THE SAFE HARBOR

The steel construction on all Gladiator® GearBoxes allows you to store water sports equipment inside a cabinet that will keep your gear protected year-round.

See pages 45

## GET HOOKED

Some items tend to get lost in the shuffle. That's where organization ends and chaos begins. Gladiator® hooks come in a variety of shapes and sizes, rearrange easily and give all those "on-the-water" essentials a home of their own.

See pages 32-33

# NAVIGATE YOUR GARAGE

## STAY ON COURSE

Water is your life. Nothing compares to a day on the lake or making waves at the beach. With an organized garage from Gladiator® GarageWorks, you can spend more time soaking up the sun and less time searching for what you need before heading out.

- A. GearWall® Panels
- B. Clean-Up Caddy
- C. 76cm (30") Wall GearBox
- D. GearTrack® Channels
- E. Small Item Bins
- F. 244cm (8') Modular Workbench
- G. Gladiator® Stool
- H. 132cm (52") Stackable Chest
- I. Bottle Opener
- J. Deep Hook

## GearWall® Panels

Easily supports all Gladiator® wall products, creating a full-wall storage solution. Pg 31

## 104cm (41") Stackable Chest

Gladiator® tool storage solutions provide lots of space to keep your tools organized and protected. Pg 42

## CLEANING OUT YOUR GARAGE

Unfortunately, you can't transform your garage without clearing out the one you already have. Here are some helpful tips to get you on your way.

### GET YOUR GARAGE READY FOR ACTION IN FIVE EASY STEPS

WHAT TO DO...	HOW TO DO IT...	FOR EXAMPLE...
<b>1</b> CLEAR EVERYTHING OUT	Clearing out the entire garage forces you to make a storage decision on every item. No cheating.	There's no example needed here. Get everything out of there!
<b>2</b> DIVIDE & CONQUER	"Keep or toss" decisions are made easier by separating your stuff into smaller groups of similar items.	Group all of your bikes and bike equipment together. This will help you see that you have 7 bike helmets and 2 bikes. We'll leave the math to you.
<b>3</b> FINAL DESTINATION	What stays? What goes? What items are headed to the trash heap? Now is the time to decide.	That TV has needed fixing since the late 80s. Designate items like this as the clutter they are. Move them to the trash and get on with your life.
<b>4</b> KEEP THE BEST	Let's face it, some clutter has sentimental value. Hang on to these memories.	Your child's first fishing pole certainly deserves a place of honor in the garage. Their first fish on the other hand...
<b>5</b> TOSS THE REST	If you hate it, don't need it, don't want it, can't fix it or can't use it... why is it still in your garage?	Stop banishing wheel-less wheelbarrows, hideous rocking chairs and never-before-used waffle makers to the garage. Find a constructive way to get rid of these items, or toss them.

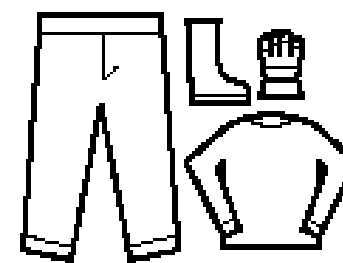

### AVOID DISASTER

Cleaning can be hazardous to your health! A few simple precautions should get you through the day safe and sound.

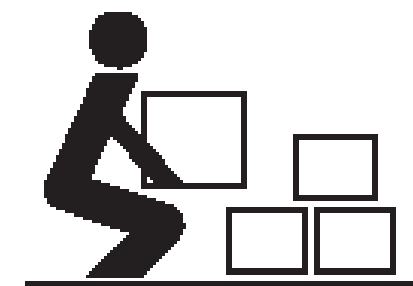

#### CHECK THE WEATHER

Nothing's worse than working in bad weather. Schedule your organization for a day with a positive forecast.

#### DRESS FOR SUCCESS

To protect yourself from sharp and rusty objects, proper clothing is a must. Wear shoes (not sandals), gloves, long sleeves and pants.

#### LIFT WITH YOUR LEGS

If you're going to be lifting heavy objects, use your legs. Your back will thank you.

#### WATCH FOR FALLING OBJECTS

Cleaning off those perilously stacked shelves can be risky business. Take extra care in these hazardous situations.

### CLEARING CLUTTER

Four constructive ways to eliminate garage hodgepodge.

#### A. GARAGE SALE

The old standard. Great for getting quick cash for those items you no longer need.

#### B. ONLINE CLASSIFIEDS

These posting sites operate like the classified section of your local paper. And many are free!

#### C. ONLINE AUCTION

For a small fee, you can post that item to an online auction site. Who knows what you might get.

#### D. DONATION

Can't sell it, but can't bring yourself to throw it away? Donate it to charity and enjoy a potential tax write-off.

### MAKE IT FUN!

Cleaning the garage doesn't have to be a chore.

#### JAM OUT

Make a mix CD or a funky playlist and rock out with your mop out.

#### CLEAN TO WIN

Make it a game or friendly competition. This works great for motivating kids.

#### RACE YOURSELF

Set a timer for tasks and see if you can beat the buzzer. You'll win every time.

#### MAKE IT AN EVENT

Since the garage holds the entire family's stuff, use cleaning as an excuse to spend time together.

### HOW LONG WILL IT TAKE?

How much stuff you have and how fast you can make decisions are two big factors in how long it could take you to clean out your garage.

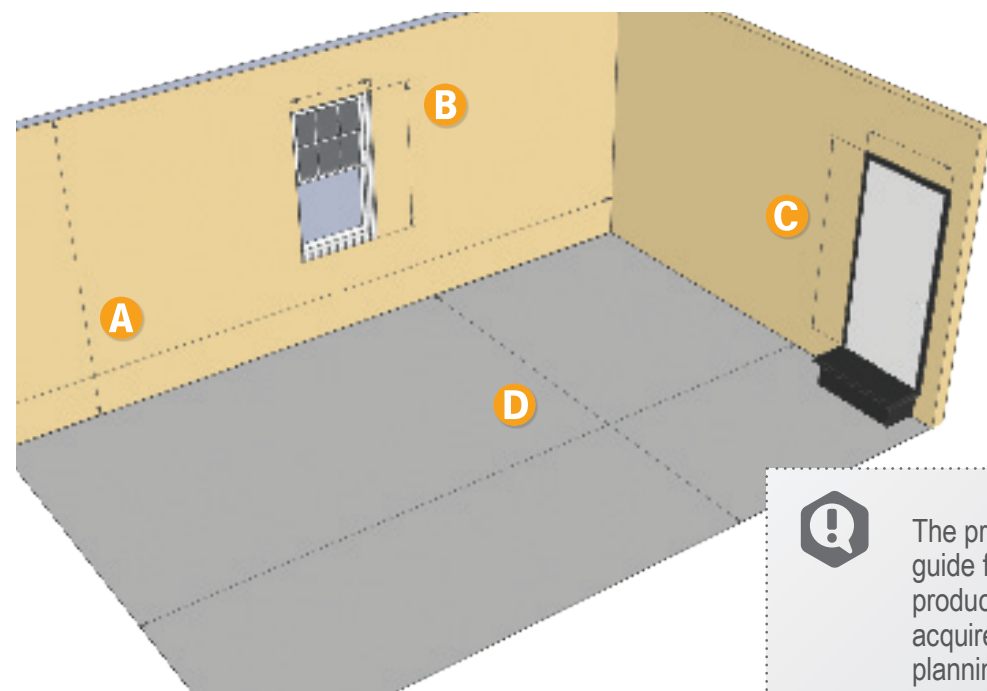

Since these factors vary from person to person and garage to garage, you are the only one who can figure this one out.

As a rule of thumb, always give yourself more time than you think you need. This way, you won't end up in a major time crunch.

## A LITTLE PLANNING...

Can go a long way and can help you avoid unnecessary headaches later. Plus, a little bit of foresight can save you time and money in the future.

### GET YOUR DIMENSIONS

Make sure to measure these things first:

- A. Front, back and side walls
- B. Windows, outlets and switches
- C. Doors, including doorstep
- D. Floor space

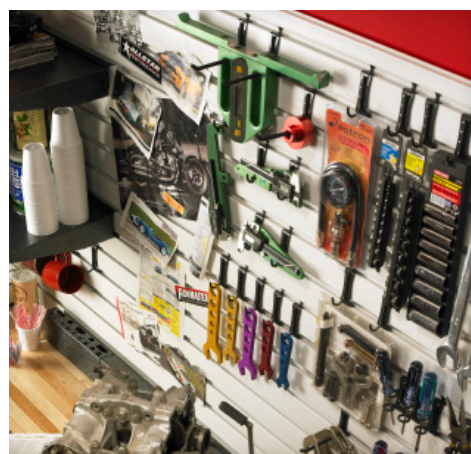

Once you get these measurements, use the Gladiator® GarageWorks Blueprint Estimator at [GladiatorWorX.eu](http://GladiatorWorX.eu) to help you design a layout that works best for you.

The product pages found later in this guide feature the dimensions for all of our products. Compare these to your newly acquired garage measurements for easy planning.

### WHAT'S YOUR STYLE?

Keep these preferences in mind when planning your new garage.

#### OUT AND ABOUT

If you like to showcase your items while keeping them off the floor and easily accessible, consider a garage plan featuring an assortment of shelves and hooks.

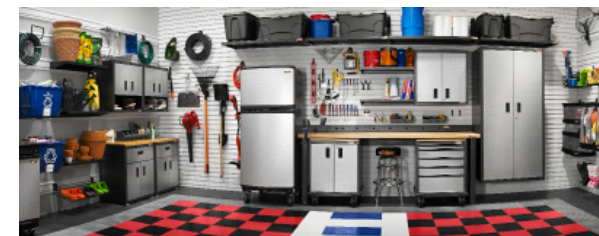

#### FLEXIBLE, VISIBLE AND CONTAINED

If you want your stuff visible, but safely secured and easy to move, you'll want to stock your garage full of flexible, easily adjustable baskets and bins.

#### HIDDEN AWAY

If you prefer to hide your clutter behind the sleek look of cabinets, Gladiator brand provides a series of stylish cabinets and drawers that will create that desired look without sacrificing storage space.

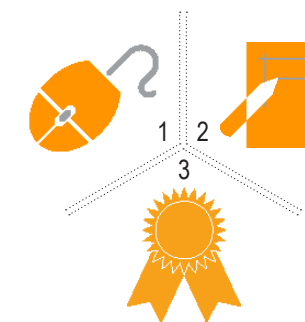

#### NEED A ZONE?

Location is everything. When planning your garage, think about logical places to store your gear. Group automotive, gardening or recreational items together for easy organization. Keep frequently used items near the entrance of your home for convenient accessibility.

### PLAN YOUR WAY

Remember those awesome garage designs we showed you? Use them to develop a garage plan that's perfect for you. Then, use our planning resources to visualize your plan.

You don't have to stick to one way of planning. A combination of planning styles could work best for you.

#### 1. PLAN ONLINE

Blueprint Estimator — The Gladiator® GarageWorks Blueprint Estimator allows you to plan your garage online. Simply enter your garage's dimensions and witness firsthand the difference Gladiator® products provide. Check it out at [GladiatorWorX.eu](http://GladiatorWorX.eu)

#### 2. SKETCH IT OUT

Get out a piece of paper and sketch your ideal garage. Don't worry if you're not an artist, the sketch is just a place to start.

#### 3. ASK THE PROS

Want more help? Get some personal advice from your local garage dealer. These experts can help get you back on the fast track if you find yourself lost.

There are many ways to store any item you own. Luckily, the Gladiator® system maximizes flexibility. Here's a list to help you explore the best way to store several common garage items.

X = Our recommendation O = Other options

ITEMS TO STORE	HOW TO STORE IT					
	Hook	Basket	Shelf	Drawer	Cabinet	Tool Storage
Balls		X			O	
Beach toys		X	O		O	
Bicycles	X					
Brooms, Rakes	X				O	
Camping equipment		O	X		O	
Canoes, Kayaks	X					
Car seats	X		O		O	
Cleaning products			O	O	X	O
Cords, Hoses, Rope	X	O		O		O
Fishing rods	X				O	
Hand tools	O			O	O	X
Holiday decorations		O	O		X	
Ladders	X					
Lawn chairs	X				O	
Lumber	X		O			
Paint cans			O	O	X	
Pesticides		O	O	O	X	
Plumbing supplies				X	O	
Power tools	O			X	O	X
Skis, Snowboards	X				O	
Weed trimmers	X				O	
Wheelbarrows	X					

Using this table as a template, create your own to include any other items you have that need to be stored in the garage. This will help you determine which products you will need.

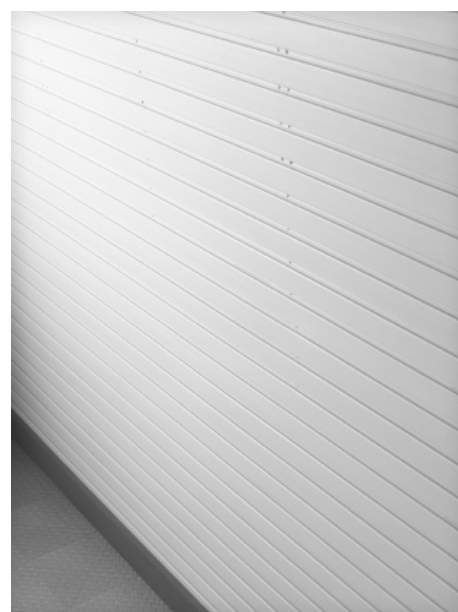

## CREATE A WALL ORGANIZATION SYSTEM

Using your walls for storage is a great way to get gear up off the floor and maximize space. It also provides you with flexible storage options that transform your garage into a space you can actually use.

### GEARTRACK® CHANNELS

### GEARWALL® PANELS

1

### CHOOSE A WALL SYSTEM

Gladiator® wall systems are patented "slat wall" style tracks made for hanging Gladiator® hooks, cabinets, shelves, baskets, bins and accessories.

Choose between GearTrack® Channels, GearWall® Panels or combine them for a customized look.

#### GEARTRACK® CHANNELS

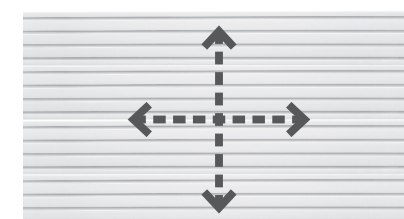

Provide a simple solution to quickly organize your garage without needing to make a full-wall commitment.

Slide hooks left or right.

#### GEARWALL® PANELS

Provide a full-coverage wall organization system that offers complete storage flexibility for those often-rearranged items.

Move hooks up, down, left or right.

2

### INSTALL THE TRACK

Gladiator® wall systems easily install on a variety of walls, including masonry, wood studs or drywall over wood studs.

Here's an example of how to install GearWall® Panels on drywall over studs.

#### 1. LOCATE AND MARK WALL STUDS

To support accessories and storage items, the panels must be securely fastened to wall studs.

#### 2. INSTALL THE BOTTOM PANEL

Start from the bottom of the wall and secure one side of the panel with appropriate screws. Set a level on the top of the panel and slide the panel up or down until level and then secure the other side.

#### 3. INSTALL THE REMAINING PANELS

Now, just slide the remaining panels left or right until they're properly aligned with the bottom. Stagger the panels for a more visually appealing look and install them with screws.

#### 4. CUT PANELS AS NEEDED

Easily customize panels to fit around garage windows and doors with a simple circular saw or miter saw.

\*For complete installation instructions, visit [GladiatorWorX.eu](http://GladiatorWorX.eu)

3

### ADD ACCESSORIES

Adding hooks, shelves, baskets, bins and cabinets to your GearTrack® Channels or GearWall® Panels is a snap.

Installing hooks & accessories on Gladiator® wall systems is as easy as 1, 2, 3.

#### INSERT BRACKET INTO TOP CHANNEL

#### SECURE BOTTOM TAB

#### PUSH DOWN TO "LOCK" IN PLACE

#### COMPLETE FLEXIBILITY

All accessories easily reposition along Gladiator® wall systems to adapt to your changing needs.

## USE GEARBOX CABINETS TO ORGANIZE AND STORE YOUR GEAR

Cabinets are a great choice for people who want to clear items from the floor and keep them safely hidden behind stylish, lockable Tread Plate doors.

### CHOOSING THE RIGHT SIZE

Some people don't need a lot of storage space, others can't get enough. Fortunately, Gladiator® GearBoxes come in various sizes to meet any need.

### WHAT MAKES A GLADIATOR® GEARBOX THE PERFECT GARAGE CABINET?

#### SAFETY

Not being able to lock up gear can be a real hazard, especially if there are young children about. Most Gladiator® GearBoxes feature universal lock systems, keeping your family and your gear safe.

#### CONSTRUCTION

Gladiator® GearBoxes are designed to handle the harsh garage environment. Heavy-duty steel construction won't warp or crack in intense climates, and they're guaranteed to hold up over years of use.

### ON THE WALL OR ON THE FLOOR

Gladiator® GearBoxes are engineered for the wall, the floor or both. Which is right for you?

#### ON THE WALL

Wall GearBoxes hang on Gladiator® wall systems to help free up floor space, giving you room for other things in the garage. This is especially useful if your garage is prone to flooding.

#### ON THE FLOOR

Modular, Tall and Jumbo GearBoxes are larger cabinets that rest on the floor. They come with either solid rubber casters or adjustable leveler legs, providing storage options that fit your needs.

#### YOUR CHOICE

Many larger Gladiator® GearBoxes offer the flexibility to choose between resting them on the floor or hanging them on Gladiator® wall systems. Assess your needs and choose the option that best suits you. Wall Bracket Kits are included with some GearBoxes and sold separately for others.

### Q GEARBOX HOW-TO

#### ADJUST SHELVEING

Simply choose a position, insert the side tabs of the shelf above the built-in cabinet grooves and set the shelf into place.

#### LOCK CASTERS

Turn the lever located on the casters clockwise to lock them and counterclockwise to unlock them.

#### INSTALL BRACKET KIT

The Premier and RTA Bracket Kits connect with a few screws, making it easy to hang larger GearBoxes on our wall systems.

## CHOOSE THE RIGHT WORK SURFACE

For many, a good work surface is an essential part of the garage. Choosing the surface that suits you best guarantees you'll always have a solid foundation to build upon.

### WHAT WORK SURFACE DO YOU NEED?

With a variety of work surfaces to choose from, pick the ones that best fit your needs.

#### A. MODULAR MAPLE WORKBENCH

Ideal for the consummate handyman. Supports up to 450kg (1,000 lbs) to handle almost any project you may have planned for it.

#### B. VERSATOP™ WORK SURFACE

Solid MDF surface installs on two Gladiator® modular components, creating a Workbench wherever and whenever you need it. Great for smaller spaces in need of some versatility.

#### C. MODULAR MAPLE TOP

Fits on top of any Premier Series Modular GearBox or GearDrawer, creating a simple work top perfect for the occasional small repair.

#### D. FOLD-AWAY WORKSTATION

Saves floor space by hanging on Gladiator® wall systems and folding away when not in use. Ideal for light repairs in a tight space. Great for potting plants, too!

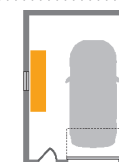

### CHOOSING THE BEST LOCATION FOR YOUR WORK SURFACE

The best location for your work area usually depends on the size of your garage.

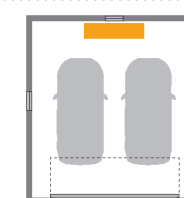

Here are some pointers to help you set up a workstation that works best for you.

WHEN CHOOSING A SPOT FOR YOUR WORK SURFACE, BE SURE TO LOOK FOR:

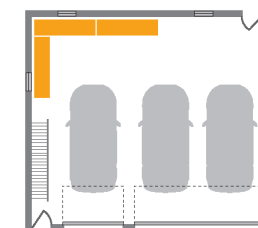

1. Good lighting
2. Room to work
3. Access to electrical outlets

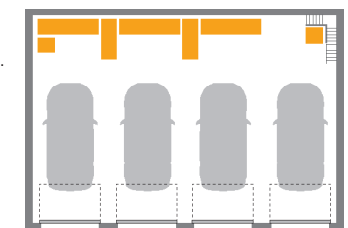

In a small garage, placing your work surface on the side is usually the best option.

In the average two-car garage, the back wall is the ideal place for your work surface.

Three-car garages often allow you to arrange work surfaces in an L-formation. This creates a highly functional work center.

Large garages often provide enough room for any number of possible work surface placements, although a long row of back wall workbenches is often the easiest option.

### Q TIPS FOR KEEPING A TIDY SURFACE

#### KEEP A TRASH CAN NEARBY

A garbage can will help keep debris from cluttering up your work area.

#### HANG TOOLS CLOSE TO YOUR BENCH

It's much easier to put a tool in its proper place when that proper place is right next to your work area.

#### HANG PLENTY OF BINS

Keeping screws, nails and other small items stored away in a group of bins will help keep your surface tidy.

#### DOCK A MODULAR GEARBOX

Dock a Modular GearBox or GearDrawer under your Workbench for easy access to frequently used items.

## FIND THE PERFECT TOOL STORAGE SOLUTION

No matter if you're a weekend warrior or a diehard professional, you need a reliable place to keep your tools. With multiple models to choose from, you will get the system best suited for you.

### PREMIER SERIES TOOL STORAGE

### PREMIER SERIES WIDE TOOL STORAGE

#### GLADIATOR® TOOL STORAGE FEATURES

Heavy-duty welded steel construction provides exceptional structure and perfect support for storage needs.

Cushioned drawer liners protect drawers from scratching and help keep tools from sliding.

Friction catch drawers eliminate the possibility of drawers rolling open when the unit is moved.

Steel ball bearing slides make opening and closing the drawer easy, even when fully loaded.

Universal round key lock offers additional security, keeping kids and pets away from harmful and unsafe products.

## BUILD UP YOUR TOOL STORAGE SYSTEM

Whether you have a few tools for small jobs around the house or a complete collection for bigger projects, Gladiator® GarageWorks has a tool storage solution that's perfect for you.

### CHOOSING THE RIGHT COMBINATION

#### A. TOOL CHEST

Provides the flexibility to store both large and small hand tools, while the top till provides extra space for tool storage. The Tool Chest is the top section of the 3-piece stackable chest.

#### B. INTERMEDIATE CHEST

Offers greater capacity with a compact, modular design and serves as an additional tool storage solution for small and large hand tools. The 3-Drawer Intermediate Chest sits conveniently in the center of the 3-piece stackable chest.

#### C. ROLL-AWAY

Features greater capacity for a variety of hand tools, while reversible heavy-duty casters turn this tool storage chest into a portable companion for any project. The Roll-Away serves as the base that makes up the 3-piece stackable chest.

## CHOOSE APPLIANCES FOR THE GARAGE

Other appliances aren't meant for the garage,  
Gladiator® appliances aren't meant for anyplace else.

### CHILLERATOR® GARAGE REFRIGERATOR

Designed to operate in garage temperatures between -17 and 43°C (0-110°F). Store extra beverages or bulky items that take up too much room in your kitchen refrigerator. The Chillerator® Garage Refrigerator features a traditional configuration of freezer on top and refrigerator on bottom.

### FREEZERATOR® CONVERTIBLE FREEZER/REFRIGERATOR

Built tough for harsh garage conditions from -17 and 43°C (0-110°F). Store large amounts of frozen foods while still having the ability to store refrigerated items. The unique configuration allows the top compartment to be set as a freezer OR refrigerator while the bottom remains a dedicated freezer.

### DID YOU KNOW?

You don't need us to tell you that a refrigerator is a good place for food and drinks (at least we hope you don't). With that in mind, we have compiled a list of uses for a garage refrigerator or freezer that you might not have considered.

- Storing bulbs and seeds in the garage refrigerator or freezer helps them keep their viability and stay ready for quick planting.
- Instead of cleaning paint brushes you plan on using again the next day, store them in the freezer. The paint will thaw when you take them out and be ready to go!
- Storing your glues in the refrigerator will help them last longer and reduce dangerous glue fumes.
- Indoor refrigerators aren't designed to leave the house. Luckily for you, Gladiator® refrigerators are made to handle the extreme temperatures and humidity levels of the garage and still keep your food and drinks exactly how you like them.

\* Incl. Euro transfo

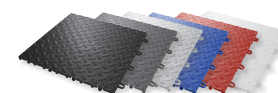

## PROTECT YOUR FLOOR

A covered garage floor is easier to install than you might think and adds style and protection to an area of the garage that's often overlooked.

### TILE FLOOR COVERING

- Easy to install. Snaps in place quickly and stays together without adhesives.
- Customizable. Design a floor that's all you with a variety of available colors.
- Go wall-to-wall or tile only those places where you need it.
- Install drain tiles to make sure water and garage liquids have an easy out.

### BEFORE YOU INSTALL

- "Measure twice, floor once," that's our motto. Being as precise as possible will save you time, money and sanity.
- Cleaning a floor that you're about to cover may seem silly, but it's necessary to keep dirt and debris from bothering you later.

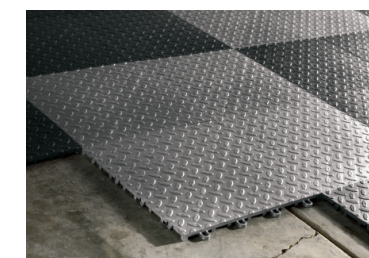

### WHY COVER THE FLOOR?

You may be wondering what the point is to improving the look of a floor that takes a beating on a regular basis.

Gladiator® tile floor coverings add style to your garage floor, but also protect it from the daily hazards of the garage environment.

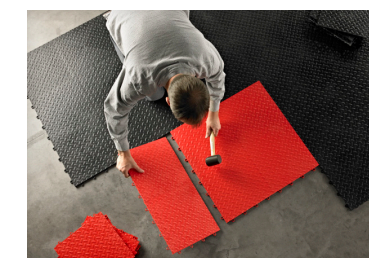

Imagine a garage floor that doesn't chip when you drop a hammer, crack in cold weather or allow oil spills to set in and stain.

Now, imagine a floor that does all this, and looks incredible.

### INSTALLATION

1. Place the tile from the front left corner to the back left corner and then fill in the front to the right. Continue installing tiles in an 'L' shape configuration.
2. If you need to cut tile, cut it so that the shorter tiles are placed around the entire perimeter. It's more work, but it looks much better.
3. After you have cut and placed the perimeter tiles, fill in the rest of your garage using the male and female interlocking loops.

## GET CREATIVE USING GLADIATOR® PRODUCTS

Gladiator® GarageWorks: It's not just for the garage anymore. (Okay, it still is, but here are some other neat ideas.)

Create a key organizer in minutes.  
Keep track of all those keys...and  
never be late to work again!

ALL YOU NEED:  
GearTrack® Channel cut to size  
J Hooks

# Tool Storage

Stack the GearChest on top of the Modular GearDrawer and you're ready to roll.

## Modular GearBoxes

Keep your gear stocked, docked and ready to rock inside Gladiator® Modular GearBoxes.

### GearChest

#### Premier Series

##### FEATURES

- + Eight full-extension drawers with cushioned drawer liners
- + Extra deep chest provides 15% more capacity in each drawer over standard tool chests
- + Gas struts provide the lid with smooth opening and closing operation
- + Lifetime Limited Warranty\*
- + SPECIFICATIONS
- + 66 x 48 x 47 (HxBxD in cm) 26" W x 18.6" H x 18.5" D
- + Rated weight capacity:
  - 136 (300 lbs) per chest (tested on 544kg)
  - 16 (35 lbs) per half-width drawer (tested on 64kg)
  - 23 (50 lbs) per full-width drawer (tested on 92kg)
- + GATC26P8WG

The 7 cm (2.75") Tall divided top till is ideal for storing small items, like pencils or rulers, in the front and frequently used larger hand tools in the back.

Use the Modular GearDrawer as the base for the GearChest, creating a versatile tool storage option.

### Modular GearBox

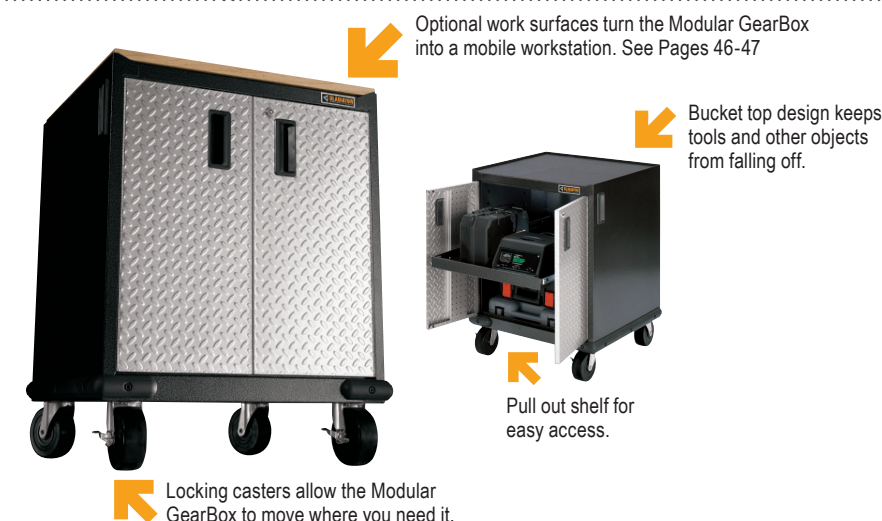

#### Premier Series

##### FEATURES

- + Heavy-duty welded steel construction
- + Full-extension shelf with cushioned liner
- + Locking Tread Plate doors with magnetic latch system
- + 68cm (26.6") Wide x 61cm (24") Deep usable work surface
- + Lifetime Limited Warranty\*

## Chillerator® Garage Refrigerator

### FEATURES

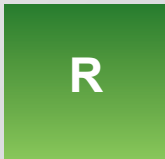

- + Designed for the garage with classic refrigerator/freezer configuration
- + ENERGY STAR® qualified
- + Signature Tread Plate design
- + Frost free defrost results in energy savings and less freezer burn
- + Keeps internal temperatures consistent, even in extreme heat/cold
- + Double Pass Heat Loop reduces condensation buildup
- + Built-in heater ensures that refrigerated items remain chilled, not frozen
- + 1-Year Limited Warranty\*

### SPECIFICATIONS

- + 75 x 186 x 80 (WxHxD in cm)  
(29.5" W x 73.125" H x 31.5" D)
- + 396 Lit (14 cu. ft.) refrigerator on bottom
- + 142 Lit (5 cu. ft.) freezer on top
- + GARF19XXVK

Dedicated Freezer

Dedicated Refrigerator

\*Visit [GladiatorWorX.eu](http://GladiatorWorX.eu) for complete warranty details.

Reversible door swing can be changed to fit your style.

Heavy-duty solid rubber casters make rearranging smooth and simple.

Easily store large, bulky items, like watermelons or extra beverages.

Unlike putting an old kitchen refrigerator in your garage, the Chillerator® Garage Refrigerator is built to operate in extreme temperatures from -17 to 43 °C (0-110°F).

## Freezerator® Convertible Freezer / Refrigerator

### FEATURES

- + Unique upper compartment can be changed from a freezer to a refrigerator
- + Signature Tread Plate design
- + Keeps internal temperatures consistent, even in extreme heat/cold of -17 to 43°C (0-110°F)
- + Double Pass Heat Loop reduces condensation buildup
- + Built-in heater ensures that refrigerated items remain chilled, not frozen
- + Heavy-duty solid rubber casters
- + 1-Year Limited Warranty\*

### SPECIFICATIONS

- + 83x 186 x 80 (LxHxD in cm)  
(32.5" W x 73.125" H x 31.5" D)
- + 425Lit (15 cu. ft.) freezer compartment on bottom
- + 170 Lit (6 cu. ft.) convertible freezer/refrigerator compartment on top
- + GAFZ21XXRK

Convertible Compartment

Dedicated Freezer

\*Visit [GladiatorWorX.eu](http://GladiatorWorX.eu) for complete warranty details.

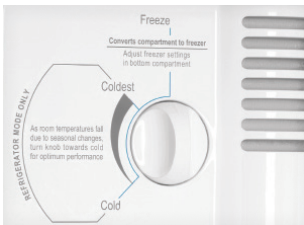

Choose your chill factor with an upper compartment that changes from a freezer to a refrigerator at your convenience.

Large lower compartment keeps food frozen, even in sweltering summer heat.

Turn the upper compartment into a refrigerator and use the door-mounted beverage rack to hold 24 35cl (12-oz) cans or half liter (20-oz) bottles.

With a turn of the dial, the upper compartment converts to either a freezer or refrigerator.

Extra wide, extra deep baskets store more items.

So you've picked out everything you need to transform your garage into the space you've always dreamed of...  
Now, here are some easy ways to bring Gladiator® GarageWorks home:

#### ONLINE STORE

Visit [GladiatorWorX.eu](http://GladiatorWorX.eu) and see just how easy it can be to shop for everything you need right from home. With an easy to use interface, GladiatorWorX.eu will have you on your way in no time.

#### RETAIL STORES
